Experience

FREELANCE FRONT-END DEVELOPER

Jan 2022 – Present

Designing and building custom, fully responsive websites for local businesses. Coding from beginning to end in VS code using HTML/CSS/JS. Using Figma tool to draft my initial designs based on clients input and direction, scoping requirements, gathering content and managing feedback appropriately. Offering complete aftercare, maintaining websites for clients and rolling out bug fixes and updates to imagery and design.

CUSTOMER SERVICE PROVIDER BUDGET ENERGY.

Sep 2024 – Present

Provided personal technical support to customers, diagnosing and resolving metering issues to minimize service disruption. Resolving complex billing queries and managing finances to better suit customers. Offering care across all calls to ensure the most vulnerable are dealt with appropriately. Maintained a satisfaction score of 4.5/5 across a 2 year period.

CIVIL SERVANT (IT TECHNICIAN) NIDIRECT

Sep 2021 - Sep 2024

Providing IT support across a Windows/macOS environment, Resolving hardware and software issues for internal staff. Achieved a 98% weekly quality score across a structured internal grading program. Monitored colleagues on IT best practices, building technical confidence across the team.
